Re: Stage-1 Drought Warning Conditions

August 1st, 2022

Dear Customers,

Due to continuing drought conditions and complying with Armstrong Water Supply Corporation Drought Contingency Policy and Drought Contingency Plan, the Armstrong Water Supply Corporation is implementing Stage 1 Drought Warning Conditions.

Stage 1 requests water customers to voluntarily limit the irrigation of landscaped areas to Sundays and Thursdays for customers with a street address ending in an even number (0,2,4,6 or 8), and locations without a street address, and Saturdays and Wednesdays for water customers with a street address ending in an odd number (1,3,5,7 or 9), and to irrigate landscapes only between the hours of midnight and 10:00 a.m. and 8:00 p.m. to midnight on designated watering days.

Water customers are requested to practice water conservation and to minimize or discontinue water use for non-essential purposes.

Stage 1 of the Drought Contingency Plan may be rescinded when all the conditions have ceased to exist for a period of 90 consecutive days. Armstrong Water Supply Corporation will notify its members, and as needed, the media, of the termination of Stage 1 in the same manner of the notification of initiation of Stage 1.
